

Buccaneer Range Regulator Gazette: October 1897
Headline: Wishbone Still Spitt'n

It was Halloween evening when Wishbone Pellingstein was taking the chuck wagon into town to stock up on some essentials when he came across a nun walking in the same direction. He asked if she needed a ride and although apprehensive she jumped on board. After a few miles Wishbone confided to her that he had always had a dream about kissing a nun. She seemed quite alarmed but after a few miles and a lot of nagging from Wishbone she finally agreed to give him a kiss providing he met two qualifications....One was that he was single and the other was that he was a Catholic. Wishbone assured her that he was single and had always been a Pope hugging Catholic. After those assurances they pulled over to the side of the trail and she gave Wishbone the most romantic kiss that he could have ever dreamed of. In fact, he tells this reporter that he thinks he may have passed out from lack of oxygen during the kiss.....After a few miles Wishbone got very quiet and the nun asked him what was bothering him. He replied that his conscience was bothering him due a lie or two that he had told her.....He finally confessed to her that not only was he not single but that he was also Jewish to boot. The nun said she also felt bad and had a confession to make to him.....She told Wishbone that her real name was Clem and he was on his way to a costume party....Like i said earlier...."Wishbone is still spitt'n".....
